## **DETAILED ACTION**

### ***Specification***

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because of the use of legal phraseology, such as "means." Correction is required. See MPEP § 608.01(b).

### ***Allowable Subject Matter***

3. Claims 1-34 are allowed.
4. The following is an examiner's statement of reasons for allowance: None of the prior art of record, alone or in combination, discloses a surgical, tubular-shafted instrument having, inter alia, a shaft, an operating rod, a handle part with an inner sleeve, a locking member displaceable radially in the inner sleeve and dipping into a recess of the shaft, a stop element displaceable into a position releasing the radial outward movement of the locking member, and holding means for fixing the stop element in a release position, where the holding means is acted upon by the shaft in

such a manner that the fixing is releasable due to displacement of the shaft in the inner sleeve.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bent et al. (3,975,032), Bent (4,199,160), and Gosselin et al. (5,505,737) teach surgical, tubular-shafted instruments.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Julian W. Woo whose telephone number is 703-308-0421. The examiner can normally be reached on M-F, 6:30-4:00, Alt. Fridays Off.
